

Summary

The document appears to be a prescription for a dog named Hiro, an Akita Inu breed, who weighs 34 kg and is 4 years, 10 months, and 13 days old. The prescription was issued by Mariana Lessa at Estação Zoounidade Campo Belo in São Paulo. The prescription includes Apoquel 16 mg to be given every 12 hours for 14 days, then every 24 hours for 7 days, and Ograx 1500 mg to be given every 24 hours for 90 days. The owner of the dog is Israel da Silva Barros. The patient is prescribed Queranon LBcx, 1 capsule every 24 hours for 90 days. Hexadene Shampoo is to be applied in the form of a bath, left on for 15 minutes, then rinsed and dried thoroughly. This procedure should be repeated twice a week. Hidrapet is to be applied after the bath with damp fur, without rinsing, and dried with a hairdryer. This application should be repeated with the same frequency as the bath. A special spray containing Mupirocin, Calendula, Camomila, Hydroviton, and Cetaconazol is also prescribed. The patient's diet should be adjusted to Royal Canin Hypoallergenic food for 60 days. The prescription is issued by the Estação Zoo, Unidade Campo Belo, São Paulo.
